***KEITH HARING***  
**POP FIGURATION**  
**January 8 – February 15, 2003**

Deitch Projects is pleased to present *Pop Figuration*, an exhibition of large-scale ink drawings by Keith Haring. The large drawings, many of them mural size, mainly date from 1982 to 1984 and illustrate the development of Haring's signature imagery.

Haring's work achieved a remarkable fusion of the rhythmic all over structure associated with Abstract Expressionism and the iconic figuration associated with Pop. The work also reflects the pulse and urban energy of the New York streets.

With a current strong revival of the direct graphic approach of Keith Haring and other artists of his generation, there is also a renewed interest in turning the art impulse into collectible products. Parallel to the *Pop Figuration* exhibition, Deitch Projects is presenting *Session the Bowl* in its 18 Wooster Street space which includes 30 younger artists whose work is inspired by Haring's street-wise graphic expression. In the storefront at Deitch Projects 76 Grand Street gallery will be a collaborative project with A-Life to present a store of new artists' products inspired by Keith Haring's Pop Shop.
